

Product name	Ring of Fire ø250 and ø160 included bag suitable for igniter and hose
Product code	6427802
GTIN	
ETIM-Class	EC011058

PRODUCT SPECIFICATIONS

A unique gas burner head specially designed to provide even heat distribution 360° around the shrink tube - ensuring a safe and effective shrink every time.

Compatible with Sievert Promatic igniters.

Supplied in a bag with:

Ring of Fire ø250

Ring of Fire ø160

Spark igniters

The igniter should be cleaned if no spark occurs. Oil, dirt and soot can have an insulating effect and prevent sparks from striking. Lightly sand the cup and tip of the igniter pin with sandpaper.

Melbye in collaboration with a Norwegian company and the development is Norwegian designed.
